

Circumferential rotor pump

SLH series

Introduction

SLH SERIES CIRCUMFERENTIAL ROTOR PUMP

Product Introduction

This **SLH** pump adopts vertical structure design and has self-priming force. The equipped hopper can directly mix, disperse, emulsify and transport granular and powdery materials and liquid medium in the pump chamber, for example direct emulsion of white sugar, salt, food additives and aqueous liquid medium.

Model	Capacity (m ³ /h)	Speed (r/min)	Outlet Pressure (bar)	Power (kW)	Inlet/outlet diameter
